EYE CARE

THE INITIAL CHALLENGE

A global leader in surgical and vision care products was searching for a molding partner that could deliver the intricacy and attention to detail their new surgical eye care device required. The molding partner needed to have experience with specialty and engineering grade resins, expertise in developing complex, multi-cavity tooling as well as in-house tooling support with the ability to quickly react to changes during the development phase of their new device. Given the complexity of the device and a critical tolerance of less than 0.001” on the fragile core pin in some applications, the customer was not certain that meeting such strict performance qualifications was even attainable.

In response, our expert team delivered a multi-cavity tool to the customer’s exact specifications—providing a quick return on investment less than six months removed from machined to molded component. This collaborative team effort laid the foundation for our growing strategic partnership with multiple manufacturing facilities throughout the United States.

STRATEGIC SUPPLIER PERFORMANCE

100% YEAR-OVER-YEAR ON-TIME DELIVERY PERFORMANCE

ZERO YEAR-OVER-YEAR EXTERNAL REJECT RATING

TENS-OF-MILLIONS OF PRODUCT SHIPPED ANNUALLY

CUSTOMER RESPONSE

“Overall, Plastikos was an incredible find for us. There’s high comfort when selecting Plastikos for a new project as we know it will be done on time, done correctly, and with high quality.”
